

RADIANT PLUS™

GAS FIREPLACE INSERTS

RADIANT PLUS™ GAS FIREPLACE INSERTS

TURN YOUR FIREPLACE INTO A RELIABLE HEAT SOURCE

The Radiant Plus™ Gas Inserts are engineered to install into your existing fireplace and designed to provide comforting RADIANT heat PLUS Natural Convection, delivering optimum warmth throughout your home.

RADIANT heat is the cozy, satisfying warmth you can actually feel from any source of heat, such as sitting in front of a campfire or soaking up the rays of the sun. NATURAL CONVECTION occurs as room air in the convection chamber is heated. This heated air rises, drawing cooler room air into the chamber, which in turn heats up and circulates around the firebox continuously.

REASONABLY PRICED

With the Radiant Plus™, you get MORE HEAT FOR LESS MONEY; that's more features and benefits than any other value-priced gas insert available, making it both a beautiful and economical way to heat your home!

Radiant Plus™ gas inserts are available in three sizes: Small, Medium, and Large.
(All shown with Times Square™ Face)

AVAILABLE WINTER 2017

Radiant Plus™ Small is installed in a metal (ZC) Fireplace and is shown with the Time Square™ Face and a four-sided surround panel which covers the original fireplace opening.

RADIANT PLUS™ SMALL INSERT

950 Square Foot Heater

The Radiant Plus™ Small is a compact sized unit that fits where most inserts can't, making it the perfect choice for those small metal (zero clearance) and masonry fireplaces. This insert is also a great choice for providing warmth to apartments or smaller areas of your home. Despite its compact firebox size, this insert still features a beautiful viewing area and fire display.

SPECIFICATIONS*

RADIANT PLUS™ GAS INSERTS OFFER FEATURES YOU'RE GOING TO LOVE!

- The Dancing-Fyre™ burner and Classic Log Set are incredibly realistic and mimic an actual wood burning fire, right down to the flame pattern, highly detailed logs and glowing ember bed.
- These inserts feature a direct vent chimney system. All combustion air is drawn from outside your home, and all combustion byproducts are then vented out of your home through a new chimney liner.
- Heavy duty steel (16 & 18 gauge) construction offers years and years of dependable service.
- High-temperature ceramic glass.
- Easy to operate controls.
- Offered as a choice of either a Standing Pilot control or a GreenSmart® Basic (IPI) control system. Ask your Authorized Lopi® Dealer for a demonstration of both systems to determine which best suits you.
- Available in three sizes.
- 50% flame and heat turndown.
- All Radiant Plus™ Inserts continue to work if you lose power to your home.

RADIANT PLUS NATURAL CONVECTION

Our Radiant Plus™ gas inserts have been designed to provide comforting RADIANT heat PLUS the addition of Natural Convection around the firebox for the maximum transfer of warmth into your home.

CHOOSING THE RIGHT INSERT FOR YOUR HOME

You are at the right place, your Authorized Lopi™ Dealer will determine which Radiant Plus™ Insert and surround panel will best fit with your existing fireplace.

You choose the style of face and options and your Authorized Lopi™ Dealer will take care of the delivery and proper installation of your new beautiful fireplace insert.

- 1 Your existing fireplace
- 2 The proper sized Radiant Plus™ installs into your fireplace
- 3 Your existing chimney gets relined with a new metal Direct Vent Kit.
- 4 A set of surround panels will prevent room air from escaping up the chimney
- 5 Select your favorite Face and options
- 6 Welcome to the Great Indoors, your family will love the warmth and firelight for years.

Detailed Dancing-Fyre™ Burner & Log Set

Optional Ceramic Brick Fireback

Not available on Radiant Plus™ Small

Your Authorized Lopi® Dealers are experts who can advise you on everything from customizing the color of your appliance to selecting appropriate venting and chimney materials. They can demonstrate Lopi® models on display, including working models actually burning.

Lopi® produces a wide variety of quality wood, pellet, and gas stoves and fireplace inserts.
Find your favorite fire today by visiting: www.lopistoves.com.

LOPI® FIRE BUILDER™

Customize the right insert for you by visiting our website at www.lopistoves.com. The Lopi® Fire Builder™ can help you select the options for your insert.

A person is using a tablet to view the Lopi Fire Builder app. The app interface shows a room with a fireplace insert. The text "BE YOUR OWN DESIGNER" is at the top. Below it, "With our New & Enhanced Firebuilder App" is written. The instructions say: "Pick your model, accessories, and extras then snap a photo of your room and upload it to the app to see what your new fire will look like in your room!". The Lopi logo is at the bottom. Below the logo, it says: "Providing warmth and style to homes across North America since 1979 with premium quality, hand-crafted gas, pellet and wood stoves and inserts that are proudly made in the USA."

KEEP THEM WARM, KEEP THEM SAFE

All Lopi® Gas Insert faces come with a built-in ANSI compliant safety screen. These screens are designed to be virtually invisible and prevent accidental contact with the hot glass surface on the fireplace insert. You may want to take additional safety measures such as adding a firescreen in front of your insert if you have small children living in or visiting your home. These precautions will allow everyone in your home to safely enjoy the comfort and warmth of your new gas insert.
