

6000 AND 8000

DIRECT VENT GAS FIREPLACES

HEAT & GLO

6000 & 8000

The flagship 6000/8000 series from Heat & Glo® is designed with your lifestyle in mind. Four models and two sizes provide flexibility to upgrade with enhanced features.

Start with the C model for moderate heat and vibrant flames. Move to the CL for upgraded LED accent lighting, choice of brick interior or reflective black glass and an IntelliFire™ Touch wireless remote control for simple and intuitive operation. Select the CLX for the ultimate fireside experience with bold, vibrant flames, high definition logs, LED-illuminated ember bed and virtually invisible anti-reflective glass. Add a touch of Modern with a clean front, ebony glass media and a reflective fluted black glass interior.

INTELLIFIRE TOUCH RC150 WIRELESS WALL SWITCH

Features: on/off, battery strength indicator, battery backup, cold climate mode

SELECT A MANTEL SYSTEM

Complete your fireplace with distinctive style. A variety of mantel systems can transform your space. Select from a range of styles. Visit heatnglo.com for more options and additional information on mantel systems, shelves and stone surrounds.

6000 & 8000 TECHNOLOGIES

INTELLIFIRE TOUCH IGNITION SYSTEM

IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. Select the wireless wall switch or touchscreen remote control for the solution that fits your life.

DIRECT VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

HEAT MANAGEMENT SOLUTIONS

Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management technology can redirect up to 50% of the heat to another area, also reducing wall temperatures above the fireplace. Choose between a **Heat-Zone™ kit** to transfer heat where you want it, or utilizing your existing furnace ductwork with a **Heat Duct kit**.

Draw heat from your fireplace and direct it outside, up to 25 feet away. When an **Heat Out kit** is run continuously on high, it can redirect up to 40% of the heat off the fireplace, also reducing wall temperatures above the fireplace.

POWER VENT TECHNOLOGY

No matter where you want to install your gas fireplace, power venting technology makes it possible. This extremely flexible, versatile technology is small enough to effectively navigate you home to an effective vent location, which in turn provides you with optimal performance, every time.

LED ACCENT LIGHTING

Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

LED EMBER BED

Add an extra layer of dimension and light to your fire. Realistic illuminated LED embers let you enjoy the ambiance, with or without the fire.

FADE-RESISTANT BLACK GLASS AND FLUTED GLASS PANELS

A clean modern look never gets dull. Just like these black glass interiors. Their hot. And look that way, too. For the life of your fireplace.

HIGH DEFINITION LOGS

Logs are a key element of your fireside experience. All Heat & Glo logs are hand-painted. For the most authentic appearance and highest level of detail, opt for the CLX model with high definition logs.

ANTI-REFLECTIVE GLASS

A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass, making it virtually invisible. And an experience so real, friends may just try and add a log to the fire.

Dimensions are in inches and millimeters. Product information is not complete and is subject to change without notice. Product installation must adhere strictly to instructions shipped with product. We recommend measuring individual units at installation. Assumes the use of 1/2" sheetrock. NOTE: Combustible material should not cover the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo® reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Actual product appearance, including flame, may differ from product images.

EFFICIENCIES

EnerGuide (CSA P.4.1-15) EnerGuide is a rating used in Canada to measure annual fireplace efficiency.

LIMITED LIFETIME WARRANTY¹

The strongest in the industry, Heat & Glo provides a limited lifetime warranty on the most important aspects: firebox and heat exchanger.

1: For full warranty details see heatnglo.com. Fireplace glass and other surfaces get extremely HOT and can cause severe burns if touched. Do not remove the protective safety screen from the front of the glass. Keep a safe distance away. To learn more visit www.heatnglo.com/fireplace-safety
