

For All ProBuilder 36 Clean Face Models

CoolSmart TV Wall™ (Optional)

- (A)** Cool room air is naturally pulled into the bottom of the convection chamber surrounding the firebox.
- (B)** If the convection fan is turned on, a major portion of the heated air is returned to the room above the fireviewing glass.
- (C)** The CoolSmart TV Wall™ allows a TV to be safely installed above the fireplace (minimum distance above fireplace of 11-1/2").
- (D)** If the fan is turned off, cool room air **(A)** and the majority of the heated convection air **(B)** are naturally drawn up through the CoolSmart Heat Vent **(D)** and returned to the room above the TV.

PB 36 CF Installation Requirements

Grill and Manifold Dimensions

The grill may be installed over the facing to provide an aesthetic opening for the convection outlet. (2) 8-32 x 1-1/2" screws attach the trim to the upper manifold. This allows variable thickness of finish material.
